

## *Your career and professional empowerment portal*

*Support for wherever you are on your journey as an early childhood professional.*

Cape is your online portal to training, resources, and planning tools that will help you build skills and map out your career in early childhood. Cape is designed to be much more than a career portal. Cape empowers all early childhood professionals, recognizing their contributions, and elevating the importance of their role within our state's economy. Once you start your Cape profile, you can capture all your career plans and accomplishments in one place.

- **Create** a profile that reflects your education and tracks your goals, training, and experience.
- **Access** professional development opportunities and resources that guide you toward your goals. Cape organizes offerings from Kansas Child Care Training Opportunities, regional education services centers, Child Care Aware of Kansas and more into a single portal for easy access.
- **Search** courses by location, organization, subject matter, or number of clock hours.
- **Register** and pay for courses directly in the Cape portal.
- **Request** technical assistance and mentorship through Cape.
- **Navigate** the Career Pathway to access learning, credentials, and degree opportunities all along your journey.

*Cape is for individuals, facilities, and training organizations*

**Early childhood professionals** can choose to affiliate their profile with a facility. **Facilities** will also create profiles within Cape. Connecting profiles can streamline communication around credentials and qualifications to make documentation easier. **Organizations** can upload and manage their course offerings and training schedule from within Cape.

*Cape will improve offerings, inform policy, and guide investments for the early childhood workforce by gathering insights from aggregated data.*

All In For
